PROFILE SUMMARY

Front-End Developer with 2+ years of experience building responsive, scalable web applications. Proficient in React.js, Angular 17+, Redux, RxJS, and RESTful APIs, delivering modular, high-performance UI solutions with optimized user experience.

Key Achievements:

- Enhanced page load performance across multiple applications, improving user experience and retention.
- Built scalable UI components and utilities, accelerating development and reducing repetitive effort across teams.

PROFESSIONAL EXPERIENCE

Nisum Consulting Pvt Ltd | Hyderabad, India

Software Engineer

Project: Unified Promotions Platform

Apr 2025 – Present

- Delivered a microservices-driven promotion platform using React.js, RTK Query, Tailwind, Apollo GraphQL, MSAL, SonarQube, and GitHub, strengthening vendor promotion operations and cross-team collaboration.
- Constructed promotion lifecycle modules with Reactive Forms, table & calendar views, detail screens, and filter drawers, streamlining campaign creation and review processes.
- Enhanced micro-frontend performance and GraphQL efficiency using React Profiler and optimization patterns, accelerating data access and UI responsiveness.

Project: Offer Management System

Sep 2024 – Mar 2025

- Architected an enterprise-grade Offer Management System leveraging Angular 18, Node.js 17, RxJS, Tailwind CSS, GraphQL, REST APIs, unit testing tools, SonarQube, Jira, and GitHub.
- Orchestrated structured offer submission, validation, and approval flows with role-based UI screens, ensuring consistency, compliance, and seamless business execution.
- Utilized RxJS for reactive data pipelines, caching, and async communication in an MVC model, ensuring continuous front-end stability and efficient service interaction.
